

Activity 4 Prompt Pack

Complete an AI Impact Assessment and Risk Register

Use only the supplied mock data. Verify every AI-generated suggestion against the scenario and course framework. Never paste personal, confidential, assessment or client data into a public AI service.

Prompt 1

Draft cause-event-impact risk statements for the scenario. Each statement must name the affected stakeholder and avoid vague labels such as 'bias risk'.

Prompt 2

Challenge the control plan using defence in depth. Identify single points of failure and propose preventive, detective, responsive and recovery controls.

Prompt-use checklist

Check	Required evidence
■	Alternatives considered
■	Six specific risk statements
■	Controls cover four modes
■	Residual risk is rescored
■	Decision and review date recorded
